the Purchaser shall pay the Third Instalment Sum to the Vendor on 2 July 2012;

The Consideration was determined after arm's length negotiations between the Purchaser and the Vendor with reference to, among other things, (i) the geographical span and size of the business operations carried out by the Target Group; (ii) the advantage of the Target Group's IP rights which may allow the Group to compete more effectively in the field of risk management products for financial institutions that focus on credential management solutions for e-channel banking, securities and insurance corporations; and (iii) the readiness of the revenue generating capacity of the Target Group. The Consideration will be funded by the Group's internal resources.

The Vendor may at any time by notice in writing to the Purchaser waive only the requirement to deliver the Disclosure Letter to the Purchaser (but not the requirement for the Disclosure Letter to be in a form satisfactory to the Purchaser) as set out in condition (x) above.

In the event that the above conditions are not satisfied or otherwise waived on or before 27 September 2011 or such later date as the parties to the Sale and Purchase Agreement may agree in writing, the Sale and Purchase Agreement shall lapse and be of no further effect.

REASONS FOR AND BENEFITS OF THE ACQUISITION

At present, the Group is principally engaged in the delivery of comprehensive one-stop shop IT services including applications and software development, consultancy, systems integration, maintenance support, help desk, outsourcing and training to clients across all industries.

The Directors consider that the Acquisition represents an excellent strategic maneuver for the Group to immediately expand its geographical coverage particularly in the Asia Pacific region.

The Directors are of the view that there will be strong business synergy attributable from the Acquisition. The Group's leadership in the IT market will be strengthened as the Acquisition will provide an opportunity for the Group to service more regional clients with deeper account penetration, particularly in the financial and services sector, among other things. Besides, the addition of the Target Group's products and technologies will allow the Group to expand its credential and assess management solutions and enrich the Group's existing security solutions offerings. The Group expects the expanded solutions offerings can address the increasing demand for IT-based security solutions generally driven by sophisticated threats, more regulatory compliance requirements, increased usage of remote access and greater acceptance of new delivery models for services.

In view of the ‘Multi-Level Protection Scheme’ policy in the PRC to support local security solutions and the extensive support from Beijing Teamsun Technology Co., Ltd. (北京華勝天成科技股份有限公司), the controlling shareholder of the Group, the Group considers that the Acquisition would place it in an excellent position to bring the world-class IT security solutions of the Target Company to clients who have operations in the Greater China region or entering into it.

Furthermore, the Target Group’s 10-year proven software development process and IP’s creation experience can facilitate the Group’s strategic plan on IP development which may benefit the long-term growth of the Group. All in all, the synergies of the two groups are expected to further fuel the Group’s business spanning from Greater China to global marketplace, mainly in the Asia Pacific region.

The Directors will continue to explore other business opportunities in the Asia Pacific region that complement well with the Group’s current mix of business operations.

The Directors (including the independent non-executive Directors) are of the view that the terms of the Sale and Purchase Agreement are fair and reasonable and in the interests of the Company and the Shareholders as a whole.
